

Successful launch of the first H-I Launch Vehicle

## ➤ Progressing Along with Society

In the over 130 years since its establishment in 1884, MHI Group has acted as a global leader in *monozukuri* and engineering, utilizing its sophisticated technology to provide integrated solutions in a wide range of fields, from infrastructure fields such as shipbuilding, transportation systems, commercial aircraft, and power generation systems, to space systems.

Leveraging our abundant track record and know-how, which we have cultivated over our long history, as well as our human resource capabilities, we will continue to work toward a better future for people around the world and for the world itself.

The approx. 70-year period from the end of the feudal system to the formation of modern Japan and participation in World War II

### Our Principles

- We deliver reliable and innovative solutions that make a lasting difference to customers and communities worldwide.
- We act with integrity and fairness, always respecting others.
- We constantly strive for excellence in our operations and technology, building on a wide global outlook and deep local insights.
