Along with fellows who aspire to create new values, we tackle on Hardtech innovations through co-creation, to realize a safe and secured society. Yokohama Hardtech Hub (YHH) is the place to make it happen, being specialized for R&D of the next-generation machinery.

**Facilities**
Facilities that have been refined with the modernization of Japan will be reborn as your workshop

**Outline**
- Site area: 20,000m² (Area 24: 2,000m², Area 22&23: 9,000m², Area 21: 9,000m²)
- Construction: Reinforcing bar structure one-story construction
  - Up to 450mm thick concrete floor
- Indoor ceiling height: 14.5-19.5m
- Indoor building: 800m²
- Infrastructure equipment: Lighting, power supply
  - (Single-phase 100V/200V, Three-phase 200v/400v)
  - Compressed air, air conditioning,
  - cold/hot water supply, Truck entrances, etc.
- Crane: Maximum load 0.49 ton-2.8 ton
  - Maximum lift 9.5 m
- Shared facilities: Event square, Meeting rooms, Wireless LAN,
  - Copy machines, pantry etc
- Fee: Reasonable flat-rate rent while located in the Greater Tokyo area,
  - including lighting/100V power supply, air conditioning, wireless LAN, etc.

Location conditions that maintain the convenience of manufacturing
- 30 minutes drive from Haneda International Airport
- Open 24-hours/7 days for Prototyping and Verification
- Facing the harbor near Honmoku Junction on the Metropolitan Expressway Bayshore Line
  - : suitable for land and sea transportations

**Target Areas**

**Environment, Energy**
Aims to Realize a Safe and Secure Society

**Intelligent Machine, Electrification**

**New Mobility**

**Food and Agriculture**

**Seeking for Partners**
To create a better world together, We are seeking for partners who have a clear vision of the society that they want to realize, and who are committed to challenging implementations of new technologies toward new markets.
Spacious labs, abundant power supply capacity, and high-load allowance enable any prototyping and verifications of large products. There are some separated rooms in the factory, which can also be used as private work space. Area 22 and 23 are hazardous materials handling facilities, in which hazardous materials can be used.

**Reception/multipurpose open space**

**Cafeteria**

**Separated rooms**

**Crane 0.5 ton x 2 units**

- Lower end of crane garter: 6.3 m
- Under the beam of the building: 6.7 m

**Area 24**

**Crane 2.8 ton x 2 units**

- Lower end of crane garter: 10.5 m
- Under the beam of the building: 14.5 m

**Area 23**

**Crane 2.8 ton x 8 units**

- Lower end of crane garter: 8.3 m
- Under the beam of the building: 9.0 m

**Area 22**

**Crane 2.8 ton x 9 units**

- Lower end of crane garter: 8.3 m
- Under the beam of the building: 9.0 m

**Area 2**

- 9,000 m²
- (2022 open)

**Area 22-23**

- 9,000 m²

**Area 24**

- 2,000 m²

**Area 21**

- 9,000 m²
  - (2022 open)
ADDRESS
12, Nishikicho, Naka-ku, Yokohama, Kanagawa, 231-8715, Japan
abt.30 minutes by car from Haneda Airport
abt.30 to 40 minutes by bus from Yokohama Sta. or Sakuragicho Sta.
abt.10 minutes by bus from Negishi Sta.
