Our Principles

Please see the inside cover page for details of our principles.

MHI GROUP × SDGS

We deliver reliable and innovative solutions that make a lasting difference to customers and communities worldwide and contribute toward the achievement of the SDGs.

MHI Group has been an innovative partner to society through a broad range of businesses for more than 130 years.

We are now being called on as a company to play an even greater role in responding to the megatrends society faces and helping resolve the various issues outlined by the Sustainable Development Goals (SDGs*).

Going forward, and in keeping with the spirit of its principles (“We deliver reliable and innovative solutions that make a lasting difference to customers and communities worldwide.”) and as a manufacturing company, MHI Group will deliver reliable and innovative solutions that make a lasting difference to customers and communities worldwide. We provide the world with products and technologies that support the social and industrial infrastructure. We also contribute toward the resolution of issues on a global scale.

*SDGs: In September 2015, the United Nations adopted these 17 goals to be achieved by 2030.
MHI Group is well-placed to focus its energies on Goal 13 of the SDGs: “Take urgent action to combat climate change and its impacts.” In addition to decreasing greenhouse gas emissions, we are striving to reduce environmental impact of all processes across our business activities. At the same time, we are pursuing specific measures to address climate change, such as by providing power plants with low environmental impact, renewable energy facilities, and CO₂ recovery plants.
