MHI ANNOUNCES OUTLINE OF FY2005 FIRST 9 MONTH FINANCIAL RESULTS
ENDED DECEMBER 31, 2005 (NON-CONSOLIDATED)

Tokyo, February 10, 2006 -- Mitsubishi Heavy Industries, Ltd. (MHI) today announced its non-consolidated financial results for first nine months of fiscal year (FY) 2005 ended December 31, 2005.

(billions of yen)

|                      | FY2005 First 9 Months (From April 1 to Dec. 31, 2005) | FY2004 First 9 Months (From April 1 to Dec. 31, 2004) | Changes (%)
|----------------------|------------------------------------------------------|------------------------------------------------------|----------
| Orders Received      | 1,386.7                                              | 1,294.8                                              | 7.1      |
| Net Sales            | 1,473.7                                              | 1,314.1                                              | 12.1     |
| Operating Income     | 20.5                                                 | --                                                   | --       |
| Ordinary Income      | 15.7                                                 | --                                                   | --       |
| Income Before Tax    | 17.3                                                 | --                                                   | --       |
| Net Income           | 14.8                                                 | --                                                   | --       |
| Net Income Per Share | 4.43 yen                                             | --                                                   | --       |

For the first nine months’ financial results of FY2004, disclosures were limited to "orders received" and "net sales"; therefore, income figures for the same period one year ago are not available.

Estimate of Non-Consolidated Financial Results for FY 2005
For the fiscal year 2005 ending March 31, 2006, MHI is expecting 2,220 billion yen in net sales, 40 billion yen in operating income, 30 billion yen in ordinary income, 35 billion yen in income before tax and 25 billion yen in net income. MHI has hedged foreign exchange risk of major currencies for the rest of fiscal year 2005. Therefore, impact of exchange rate fluctuation on this estimates that may arise in translating foreign currencies into Japanese yen is expected to be minor.

This estimate has been projected with currently available information and data. Therefore please be advised that the actual results may diverge broadly with the influence of the variety of the outside factors such as economics surrounding MHI or currency exchange rate fluctuation.
