

# REPAIR SERVICES

## PROVIDING RAPID REPAIR SOLUTIONS TO ALL EQUIPMENT

Whether you need routine or unexpected maintenance or repair, Mitsubishi Heavy Industries Compressor International (MCO-I) provides rapid, turnkey solutions to minimize downtime and keep revenues flowing. Our state-of-the-art service center, Pearland Works, features new, world class tooling capable of servicing Mitsubishi and other OEM rotating equipment. With best-in-class automatic welding systems, complete CNC capabilities, and high-speed balancing, we repair your machinery to the highest industry standards for reliability and accuracy.

## THE +M DIFFERENCE

Mitsubishi Heavy Industries is a recognized industry leader in advanced technology. Our +M approach to repair means we use the same MHI Machine Tool Ltd. machines, custom designed for our new equipment production lines, in repairs.
