

【2020年度】

国際会議・海外発表

日付	講演・会議・掲載誌名など	テーマ
2021年2月	Nuclear Engineering and Design: An International Journal devoted to all aspects of Nuclear Fission Energy	Mitigation of severe accidents for SFR and associated event sequence assessment
2020年9月1日～4日 (オンライン開催)	Dynamics and Design Conference 2020 (D & D2020)	積層ゴム系免震構造の安全率に関する基礎的考察
2020年8月3日～ (オンライン開催)	ASME Pressure Vessels & Piping Conference 2020	Study on the Predictive Evaluation Method for Liquid Surface Shape and Flow Velocity in Nonlinear Sloshing Based on Simplified Equations
		Study on the Predictive Evaluation Method of Load Acting on the Roof and Internal Components of Cylindrical Tanks by Nonlinear Sloshing
		Research and Development of Three-Dimensional Isolation System for Sodium-Cooled Fast Reactor PART 5: Isolation Performance Subjected PART 6: Development of High Speed Oil Damper for Isolated Building to Reactor Building
		Development of the buckling evaluation method for large scale vessel by the testing of Gr.91 vessel subjected to vertical and horizontal loading
