

MARINE MACHI- NERY

COMPANY PROFILE

PRODUCT INFORMATION

— ENGLISH —

A varied product line-up that meets the diverse needs of our customers.

Mitsubishi Heavy Industries, Ltd. offers a varied product line up made possible through proprietary design, cutting-edge technology and the fusion of the trust and track record nurtured over 140 years. The marine products offered by MHI-MME are characterized by the reliability, high performance and superior maintainability that only MHI and its long history can provide. They bring together MHI's advanced technology to turbochargers, boilers, turbines and propellers, deck cranes and even winches. These products are manufactured at the Nagasaki Shipyard, the cradle of Japanese shipbuilding, and other production bases, and are being actively used worldwide.

MET Turbochargers

- MET-VTI • EGB
- MET-MBII • MET-MB
- MET-ER • MET-SRC

Energy & Environmental Equipment

- Waste Heat Recovery System
- Integration of shaft generation and WHRS
- Organic Rankin Cycle (ORC)
- Turbine Generator for Cryogenic Power Generation System
- Auxiliary Boilers
- Steam Turbine Generators
- Steam Turbine Propulsion Vessels
- Deck Boilers and Steam Turbine Generators for FPSO/FSO/FSRU/FLNG

Marine Machinery

- Steering Gear
- Retractable Fin Stabilizers
- Propeller

Deck Crane · Deck Machinery

- Electric Hydraulic Deck Crane
- Electric Deck Crane
- Windlass · Mooring winch

Water Jet Propulsion System

Corporate Overview

Trade Name	Mitsubishi Heavy Industries Marine Machinery & Equipment Co., Ltd.	
Head Office	1-1 Akunoura-Machi, Nagasaki, 850-8610, Japan TEL.+81-95-828-7185 FAX.+81-95-828-6633 URL: http://mhimme.mhi.com/ Email: info-meet@mhi.com	
President	Katsuhide Matsunaga	
Capital	1 billion Japanese Yen	
No. of Employees	244 (As of Apr. 2025)	
Business Activities	Development, design, manufacture, marketing, after-sales service and licensing of marine machinery	

Corporate History

July 1884	Yataro Iwasaki, founder of Mitsubishi, leased the Nagasaki Shipyard owned by the Japanese Ministry of Industry. Naming it the Nagasaki Shipyard & Machinery Works it began full-scale shipbuilding work.	1972	Manufactured first electro-hydraulic deck crane and electric crane
1885	Completed production of its first marine boiler. Since then, it has successively expanded manufacturing activities to include engines, turbines, turbochargers, propellers, fin stabilizers, steering gears, deck cranes and deck machinery.	October 1977	Established MHI Diesel Service Co., Ltd. as a wholly owned subsidiary of MHI Group, with a capital of 25 million yen, to handle the design of MHI marine engines, etc., as well as carry out after-sales services.
	Manufactured first marine boiler	April 2011	The Marine Machinery & Engine Division was established within the Power Systems Headquarters consolidating MHI's marine machinery and engine businesses.
1904	Manufactured first propeller	October 2013	Successfully accomplished the development, design, sales, after-sales service and licensing of MHI's marine machinery and engines. Capital increased to 1 billion yen, and the trade name changed to Mitsubishi Heavy Industries Marine Machinery & Engine Co., Ltd.
1908	Manufactured first marine turbine	April 2017	Transferred engine business to Kobe Diesel Co., Ltd, which changed their name to Japan Engine Corporation. Company name changed to Mitsubishi Heavy Industries Marine Machinery & Equipment Co., Ltd.
1920	Manufactured first fin-type stabilizer		
1935	Manufactured first electro-hydraulic steering gear		
1953	Manufactured first steam winch		
1965	Manufactured first non-water cooled exhaustgas turbocharger
